ROBERTS HARDWOOD LUMBER
& BUILDING SUPPLY INC.

Welcome

to Roberts Hardwood Lumber, a residential and commercial building materials supplier. As a long-standing, family owned business, we can provide you with outstanding customer service along with furnishing you, our customer, only the highest quality materials and products.

PRODUCTS

Our in-house mill shop produces a variety of custom millwork to fulfill your project requirements. The items we produce include entry doors, radius mouldings and jambs, stair tread, and any standard or custom profile of architectural moulding. In addition to our custom products, Roberts Hardwood Lumber also supplies commodity trim, doors and door hardware to numerous builders. We can produce complete interior trim packages for a single home or multi-unit condominium projects. Our window and door showroom features working displays from both PGT and Peachtree brands.

Roberts Hardwood Lumber stocks over thirty species of North American and Exotic Hardwoods, both rough and surfaced. We also can accommodate all aspects of finish carpentry as we stock a large variety of cabinet and furniture grade veneers and sheet goods.

SERVICE

Experienced sales representatives will assist you with every aspect of your order. We use a consultative sales approach to evaluate your project and recommend the most cost effective products for the job. We value each and every customer and our goal is to exceed your expectations. Our goal is to provide excellent customer service with the highest quality products to achieve the most cost effective solutions.

QUALITY

We stand behind the quality of our products. Within an alliance of national lumber dealers, we are able to continually monitor the hardwood industry for pricing and quality of raw materials. Our expert craftsmen in our mill shop are highly trained and produce only the finest quality materials. We have added a signature trademark in the back of our mouldings as our statement that we stand behind our product.

We have built a solid reputation on delivering quality materials along with our high standard of customer service. As owner and president, I look forward to having you as a valued customer of Roberts Hardwood Lumber.

New World Technology, Old World Craftsmanship, And Value Thats Worlds Apart

Features & Benefits:

- Hand built construction for a true architecturally correct raised panel & raised moulding design feature at a much better value than a typical wood door.
- 1 3/4" solid core door provides a much quieter environment than the 1 3/8" door and hollow core door.
- 1 1/2 solid wood dge along the top rail and stiles, and full 4" solid wood edge at the bottom rail. This feature allows for job-site trimming on al sides for a custom fit

WE SUPPORT YOUR DREAMS

- Structural integrity of marble, yet remarkably lightweight.
- Ideal for porches, balconies, pool enclosures, decks, gazebos, courtyards and patios
- Class A fire-rated
- Smooth, consistent surface texture compared to stone or concrete
- Extremely Durable
- Virtually maintenance-free; unlike wood, no grain to raise, which can cause paint to crack, peel, or chip.
- Easy and economical to install without specialized labor or equipment

James Pick & Sons Construction

"Using PGT Winguard windows and doors have surpassed my expectations!!!"

Jeff Pick (customer)

Roberts Hardwood Lumber prides itself in one on one customer service.

We start by scheduling a meeting with the contractor and/or homeowner. During which time, plans are reviewed opening by opening to determine the proper size, color and appearance of the windows and exterior doors that are most desirable to the homeowner.

This method assures the expectations of the homeowner are met.

Using PGT's "WEBWEAVER" software allows a customer to make selections instantly on screen. This allows for viewing of finished product prior to ordering. Whether using their traditional aluminum product or the 'impact' Winguard product, you can't lose.

Paul Naas
Window Division Manager

PGT is your comprehensive solution for quality aluminum windows and doors for residential and light commercial use, in both new construction and replacement applications. We exceed your expectations so you can exceed your customer's.

CUSTOM-MADE WINDOWS & DOORS

We start with extruded aluminum that's heavier and stronger than what's used by most other manufacturers, making PGT@ Aluminum Windows and

Doors ideal for both residential use and light commercial projects such as hotels, apartment buildings, nursing homes and schools. Utilizing state-of-the-art technology, a highly skilled workforce and rigorous quality control measures, we provide a complete line of energy-efficient windows and doors that meet the highest standards.

Every PGT aluminum window and door is custom-built to your exact specifications, leaving nothing to chance at installation time. PGT's comprehensive selection of options, upgrades and innovations are able to satisfy your project's needs, making it easy for you to deliver quality work to your customers.
